

Junior Data Protection Technology Advisor (19103)

Location: Zurich, Geneva

Work Pattern Percentage: 80% - 100%

You bring ambition, we provide opportunities.

Kickstart Your Cyber Career

Secure Data and Protect Privacy.

Do you want to use your data protection technology expertise, entrepreneurial and innovative mindset to drive progress in a dynamic digital world where data must be secured and the privacy of individuals protected? Join us as we work with more than 80% of the Fortune Global 500 companies to address data protection and data privacy challenges. Supported by tools, training, and opportunities to advance leadership capabilities, our world-class team is motivated by one goal: help companies foster digital trust.

How you can make an impact

- Establish credibility with current and prospective clients by demonstrating specialist knowledge of various operational, compliance and technology aspects of data protection, information security and regulatory compliance
- Take a proactive role in supporting clients' data protection and digital trust (eg AI) projects, applying your subject matter expertise
- Apply innovative thinking to continuously improve and expand our service proposition by enhancing our tools, methodologies, and knowledge assets to sustain our leading market position as innovators in the data protection, digital trust and cyber space
- Actively create lasting relationships within your team, other Deloitte divisions and our clients, creating trust as the foundation for business success
- Support business development work through responding to client bids, extending/expanding existing projects

Who we are looking for

- You have a strong interest in the entire ecosystem of data protection and digital trust, an affinity to design and implement data protection and digital trust strategies and stay up-to-date with industry trends
- You have up to 1 to 2 years of experience, ideally in a professional services advisory, that gives you a solid understanding of data protection and/or digital trust consulting
- You have a sound knowledge of data protection and/or digital trust related regulations and/or operational practices

- You have completed a Bachelor's or Master's degree, certifications such as CISSP, CIPP/E, CIPM, CIPT, PMP or others indicating specialist capabilities, are a plus
- You are completely fluent in German and English

Your team

Become part of an entrepreneurial, innovative, and international team of 70 +Cyber professionals across Switzerland. We are passionate about bringing best in class cyber solutions to our clients and helping our people grow both personally and professionally through trainings, mentoring programmes and on-the-job learning.
